

WE ARE **HIRING**

Assistant or Associate Professor Invasive Species

Job #: 528457

Work type: Teaching & Research Faculty

Senior management: College of Agriculture & Life Sciences

Hiring units: Department of Entomology and School of Plant & Environmental Sciences

Location: Virginia Tech | Blacksburg, Virginia

Review date: April 8th, 2024

The College of Agriculture and Life Sciences at Virginia Tech seeks applicants for a 9-month research (70%) and extension (30%) tenure-track position at the Assistant or Associate Professor rank in the area of invasive species research and Extension as part of a campus-wide Invasive Species cluster hire located at the Blacksburg, VA campus.

The focus of the position is to develop an innovative program on transdisciplinary research and management of invasive plants, plant pathogens, and/or arthropods to mitigate the threat they pose to managed or natural habitats. The selected candidate is expected to develop an externally funded program that works closely with the [***Invasive Species Working Group***](#) (ISWG), Virginia Cooperative Extension Agents, the Virginia Tech Agricultural Research and Extension Centers, relevant State and Federal Agencies, and other associations in the development and delivery of their research and educational programs.
