

## Gee X & Hyde NSL – 28<sup>th</sup> February 2019

### Terrain

Expect hills (not necessarily compulsory!) as well as northern terraces, parkland, Hyde town centre and a disused railway line (which is mostly paved but not lit) bisecting the area.

### Points

A slight change to normal with **points from 30 to 90** just to keep you on your toes!

### Parking

The car park at the Grapes is quite small so it is likely that you will need to find parking on surrounding streets. Wych Fold and Lord Derby Road to the south west and School Lane, King Edward Road and Windsor Road to the north and north west look the best candidates. Stockport Road (because it is busy) and Joel Road (because it is narrow and double parked with residents) should be avoided. There is a small car park opposite Double Ds Café which might have spaces.

### Food & Drink

**The pub has asked if runners could pre-order food before they depart and the chef is happy to stay as long as needed. The pub has been particularly obliging so do stay and have a drink/eat if you can. Thanks**
