### What is CIT?

Crisis Intervention Team (CIT) is an innovative first-responder model of law enforcement-based crisis intervention with community, healthcare and advocacy partnerships. NEMO CIT offers this training free to participants as we believe in the mission of CIT working partnerships.

CIT training is a 40 hour POST approved training course focusing on training law enforcement and first responders in the basis assessment skills for effectively handling incidents involving individuals in a behavioral health crisis. CIT training improves the safety of law enforcement, individuals, family members and citizens within the community.

CIT reduces both stigma and the need for further involvement with the criminal justice system. CIT provides a forum for effective problem solving regarding the interaction between the criminal justice and mental health care system. It can create the context for sustainable change through the building of partnerships.

Who to expect at this training: Police department staff; Sheriff's Department; Missouri Highway Patrol; Judges; Probation and Parole; Children's division; PFH; MTBH; local college and high school staff; attorneys; Public administrators; SB 40; Senior Services; Clergy and others.
