

New England Waste Services of Vermont, Inc. (NEWSVT) is soliciting proposals from Engineering/Environmental firms to perform on-site and off-site odor complaint response evaluation, off-site odor monitoring and on-site random waste load inspections at our municipal solid waste disposal facility located at 21 Landfill Lane in Coventry, Vermont. This Request for Proposal aligns with an obligation within our most recent Land Use Permit to perform these activities. To qualify for this work, members of the firm may not be a current or former owner, officer, employee, or other such affiliate of NEWSVT or its parent company (Casella Waste Systems, Inc.) and cannot have worked on the NEWSVT Phase VI permitting project authorized by this permit either on behalf of NEWSVT or any other party to the Land Use permitting. In addition, the firm shall have staff trained in odor detection and/or landfill construction, operation, and inspection, shall have the ability to arrive at the site within 30 minutes of being notified of an odor complaint, regardless of the time of day the complaint is received. The firm shall report directly to the District Commission, Natural Resources Board, Town of Coventry and the Agency of Natural Resources within 24 hours of completion of an odor complaint investigation and on a monthly basis with regard to off-site odor monitoring and random load inspection reporting. Proposals shall be due by 4:00 pm on May 28, 2021. For a complete bid package, including the form of Landfill Inspection Agreement and related exhibits, please email John Gay of NEWSVT at john.gay@casella.com or call at (802) 236-5973.
